ABOUT ME

Dedicated and detail-oriented Backend Developer with over 2 years of hands-on experience in designing and implementing scalable, secure, and high-performance web applications. Skilled in building robust backend architectures using Node.js and Express, developing APIs, managing databases, and deploying services on cloud platforms like AWS. Strong understanding of authentication mechanisms, database optimization, and system design principles. Adept at collaborating with cross-functional teams, debugging complex issues, and automating workflows to boost development efficiency. Proven ability to contribute effectively to both individual and team-based projects, with a passion for continuous learning and code quality.

SKILL

- **Languages:** JavaScript, Python, SQL
- **Frameworks & Tools:** Node.js, Express.js, Postman, Git
- **Databases:** MongoDB, PostgreSQL, Redis
- **Cloud & DevOps:** AWS EC2, AWS S3, AWS Lambda
- **Operating System:** Windows, Linux
- **Other:** Data Structures and Algorithms, DBMS

WORK EXPERIENCE

Software Engineer — PartAnalytics (acquired by Altium)

MAY 2023 – PRESENT

- Implemented secure SSO using Azure OAuth 2.0, reducing login-related tickets by 70%.
- Built token validation and role-based access control for internal and external apps.
- Designed LOA data archiving & restoration system, reducing active DB size by 20%.
- Developed admin activity log tracking with date-range filtering.
- Structured logs in a user-friendly format for audit trails and compliance.
- Integrated role-based permissions to control visibility of logs.
- Developed functionality to track and log admin activities (create, update, delete) within the admin app.
- Automated publishing and awarding of RFQs with backend job scheduling.

Software Engineer Trainee — FunctionUp

Sep 2022 – Apr 2023

- Built a blogging site enabling user authentication and CRUD blog features. [GitHub](#)
- Developed a scalable URL Shortener using Redis caching. [GitHub](#)
- Designed backend for a shopping cart system managing products, customers, and orders. [GitHub](#)

EDUCATION

Jul 2018 – Dec 2021

BACHELOR OF COMPUTER APPLICATIONS

Chhatrapati Shahu Ji Maharaj University, Kanpur

ACHIEVEMENTS

- Solved 300+ problems on LeetCode.
- Participated in multiple coding contests on platforms like CodeChef and HackerRank.
- Achieved over 90% course completion on freeCodeCamp and Coursera backend development tracks.
- Regular participant in tech meetups and developer communities.
- Created and maintained a personal technical blog to document learning and industry trends.
