ABOUT ME

Dedicated and detail-oriented Backend Developer with 2.5+ years of experience in building scalable, secure, and high-performance web applications. Currently working in a startup environment, delivering end-to-end backend solutions with a focus on efficiency and innovation.

Proficient in Node.js, Express.js, RESTful API development, and database management (PostgreSQL, MySQL). Experienced in cloud deployment on AWS, authentication mechanisms (OAuth 2.0, JWT), query optimization, database indexing, and system design.

Skilled in debugging, performance tuning, and workflow automation using backend job scheduling and CI/CD pipelines. Strong team collaborator with proven ability to lead and contribute to scalable, maintainable, and high-quality software systems.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, SQL, GraphQL
- **Frameworks & Tools:** Node.js, Express.js, Postman, Jest, Git
- **Databases:** MongoDB, PostgreSQL, Redis
- **Cloud & DevOps:** AWS EC2, AWS S3, AWS Lambda, AWS SQS, Serverless Cloud Computing
- **Operating System:** Windows, Linux
- **Documentation:** Confluence, API Documentation, System Design Records
- **Other:** Data Structures and Algorithms, DBMS

WORK EXPERIENCE

Software Engineer — PartAnalytics (acquired by Altium)

MAY 2023 – PRESENT

- Implemented **secure SSO (Single Sign-On)** using **Azure OAuth 2.0** and **JWT authentication**, reducing login-related tickets by **70%**.
- Built token validation, **role-based access control (RBAC)**, and automated backend job scheduling using **Node.js cron jobs** for RFQ workflows.
- Designed a LOA **data archiving and restoration** module leveraging **PostgreSQL partitioning** and **data indexing**, optimizing database performance and reducing active DB size by **20%**.
- Developed **admin activity logging**, structured audit trails, and granular access permissions ensuring **security compliance** and **traceability**.
- Improved **query optimization**, **API creation**, and **system integration** through **Sequelize ORM tuning**, **RESTful API design**, and **modular service architecture** for **scalable backend performance**.

Software Engineer Trainee — FunctionUp

Sep 2022 – Apr 2023

- Built a **blogging site** enabling **user authentication** and **CRUD blog features**. [GitHub](#)
- Developed a **scalable URL Shortener** using **Redis caching**. [GitHub](#)
- Designed backend for a **shopping cart system** managing **products, customers, and orders**. [GitHub](#)

EDUCATION

Jul 2018 – Dec 2021

BACHELOR OF COMPUTER APPLICATIONS

Chhatrapati Shahu Ji Maharaj University, Kanpur

72%

ACHIEVEMENTS

- Solved 300+ problems on LeetCode.
- Achieved 90%+ course completion on Udemy and AWS backend development tracks.
- Regular participant in tech meetups and developer communities.
- Created and maintained a personal technical blog to document learning and industry trends.
